HARVARD UNIVERSITY

Address
Belfer Center 317
79 John F. Kennedy St
Cambridge MA 02138

Academic Appointments

Harvard University (2023 – Present)
Postdoctoral Fellow, Environment and Natural Resources Program, Harvard Kennedy School Belfer Center & Salata Institute for Climate and Sustainability

Carnegie Mellon University (2022 – 2023)
Postdoctoral Associate, Department of Engineering and Public Policy
Visiting Researcher, Institute of Energy, Environment, and Economy, Tsinghua University (Summer 2023)

Education

Massachusetts Institute of Technology, Institute for Data, Systems, and Society
Ph.D. in Social and Engineering Systems, 2023 (defended September 2022)
- Dissertation: *Local official and polluter accountability in China's environmental inspections*

M.Fin., MIT Sloan School of Management (2017)

Zhejiang University
B.S. in Applied Mathematics (2011–2015)

Fields

Energy and Environmental Policy; Regulation and Policy Implementation
Methods: equilibrium modeling; causal inference; text-as-data methods

Publications

Policy Interactions and the Cost of Decarbonizing Aviation (first author, with Kristen McCormack, William A. Scott, Aaron Smith, Jingran Zhang, and James H. Stock) [link] [code]
Journal of the Association of Environmental and Resource Economists, forthcoming. NBER Working Paper No. 34326.
Contribution: designed the equilibrium model, carried out the calibration, coding, and empirical analysis, and wrote the manuscript.
Policy impact: analysis of California's proposed SAF tax credit with this model was cited by the California Legislative Analyst's Office; covered by E&E News.

Dynamic Responses of SO_2 Pollution to China's Environmental Inspections (co-first author with Valerie J. Karplus) [link] [code]
Proceedings of the National Academy of Sciences, 2023

Research in Progress

Dynamic Incentives and the Cost of Climate Policy in U.S. Transportation
Examines how credit banking and durable vehicle investment shape the timing, cost, and incidence of transportation decarbonization, using a dynamic national model of fuel, credit, and vehicle markets spanning road transportation and aviation, benchmarked against a carbon price.

Do State Low Carbon Fuel Standards Complement Federal Biofuel Mandates? (first author, with Kristen McCormack, William A. Scott, Aaron Smith, Jingran Zhang, and James H. Stock)
Asks what state clean-fuel standards add to federal biofuel mandates and how a newly adopting state should design one. *To be presented at the APPAM Fall Research Conference, 2026.*

When Inspectors Return: Who Receives Substantive Enforcement?
Asks how repeated central inspections change which firms receive substantive local enforcement; preliminary results from 80,000+ citizen complaint records in China. *Presented at the CU Environmental & Resource Economics Workshop, 2026.*

Policy Writing

High Costs and Few Benefits from California's Proposed Sustainable Aviation Fuel Tax Credit (with Aaron Smith, Kristen McCormack, William A. Scott, James H. Stock, and Jingran Zhang) [link]
Energy Institute at Haas Blog, February 2026; cited by the California Legislative Analyst's Office.

Towards Credible and Cost-Effective Options for Sourcing Green Power for Supply Chains in China (with Da Zhang and Valerie J. Karplus) [link]
Policy brief for the Tsinghua Round Table on Corporate Carbon Neutrality Strategies, 2023.

Fellowships

MIT Presidential Fellowship, 2017
Salata Institute for Climate and Sustainability Postdoctoral Fellowship, Harvard University, 2023–2027

Teaching & Advising

Research supervision, Harvard University (2026 – Present)
Supervise undergraduate research assistants on the clean-fuel policy modeling project.

Research supervision, Carnegie Mellon University (2022 – 2023)
Supervised master's research assistants on the Tsinghua green-power supply chain project (interview design, data collection, analysis).

Science, Technology and Public Policy, MIT (Spring 2020, Spring 2021)
Teaching Assistant for Professors Noelle Selin and Kenneth Oye; led weekly recitation sections (10–15 students), grading, and research-project mentoring.

The Economic Approach to Cities and Environmental Sustainability, MIT (Fall 2021)
Guest lecture: "Political Economy of Regulating Pollution"

MIT Kaufman Teaching Certificate Program, MIT (Fall 2020)
Designed course curriculum for "Data Science for Decision Making in Public Policy".

Academic Presentations

2027	ASSA Annual Meeting, poster (scheduled)
2026	APPAM Fall Research Conference (scheduled); Tsinghua University; CU Environmental & Resource Economics Workshop; University of Hong Kong; Hong Kong University of Science and Technology; ARCS Research Conference; Renmin University of China; China and Energy Fellows Seminar, Belfer Center; Fudan University; Huazhong University of Science and Technology; Institutional and Organizational Economics Academy; CES NA Annual Conference
2024	ASSA Annual Meeting
2023	ARCS Annual Research Conference
2022	Northeast Workshop on Energy Policy and Environmental Economics
2020–21	Environmental Politics and Governance Conference; Duck Family Graduate Workshop in Environmental Politics and Governance (2020, 2021); Institutional and Organizational Economics Academy; ETH Academy on Sustainability and Technology; China Research Group Doctoral Symposium; Interdisciplinary Ph.D. Workshop in Sustainable Development

Policy & Industry Presentations

2026	North American SAF Conference and Expo; International Fuel Ethanol Workshop & Expo
2025	Regional SAF Workshop for Massachusetts and New England
2024	North American SAF Conference and Expo
2023	Roundtable on Corporate Carbon Neutrality Strategies, Tsinghua University

Service

Referee: *GCB Bioenergy*

Student organizer, Sloan China Seminar Series, MIT (2017–2020)
Research Collaborator, Sustainable PPE Initiative, MIT (2020–2021)

Languages English (fluent), Chinese (native)

Software skills Python, GAMS, Stata, R, MATLAB, LaTeX
